Cardstock Dimensions for this Project

- Rich Razzleberry Cardstock
 - Card base: 5.5 x 8.5, folded in half
- Whisper White Cardstock
 - Card Mat: 3.75 x 5
- Rich Razzleberry Patterns Designer Series Paper
 - 5 x 2.5
- Shimmery White Cardstock
 - 4 x 4 piece to stamp and emboss flower

Reinker Float Directions

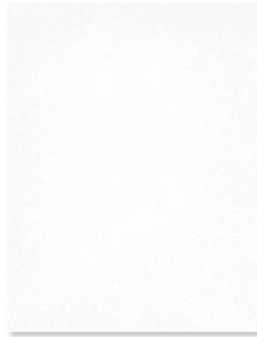

1. Stamp an image in Versamark on Shimmery White card stock and heat emboss with white embossing powder. (It will work with other color embossing powders too, white was used with the sample)
2. Lightly spritz image with water until it puddles on the card stock.
3. Dip the Aquapainter into a pool of reinker and lightly touch a puddle of water and watch is spread out. Continue adding color, cleaning your brush between colors until you have the look you want.
4. Put aside and let dry. You can speed up the process by using your heat tool.

Must- Have Items for this Technique

Heat Tool (100005)

High-quality heat tool makes embossing quick and easy. Stampin' Up!'s heat tool is one of the best on the market today.

Shimmery White Cardstock (101731)

10 sheets per package, 80 lb cover weight, both side shimmer

Classic Reinkers

Water-based dye ink, coordinates with all Stampin' Up colors, sold individually or in color families
